

Annual Night Verification Work List – Class I Private Aids and Bridges Only

This report has been prepared from data extracted from the 2008 Light List Volume V and updated with PERMANENT changes as published in Local Notices to Mariners through 31 DEC 2008. The information is provided to assist AV Staff Officers in the planning for aid verification missions in their AOR.

- Aid status as reported in a prior visit is included if that information was reported to the DSO-NS.
- Private aid "Remarks" data from the Coast Guard ATONIS database is included.
- **Class I** Private aids are flagged with the word "**Private**" under the Light List number in this report. Although all private aids are listed in the Light List, Annual Night Verification Forms are provided for Class I private aids only.

For private aids with multiple lights, the ATONIS descriptions should help Aid Verifiers locate the individual lights, or the light fixtures for extinguished lamps. In situations where any of the lights **are not watching properly**, these descriptions should be used to accurately and fully identify the specific discrepant light(s) **and** the specific light(s) that **are watching properly**.
